Dear Nazario and Ron:

A side walk location in the Hollywood Media District BID has collapsed this morning. The tenant, Television Center, has already called this matter in to 311 with the following reference #154774271. The area is currently barricaded and taped off from the public. I am requesting that Street Services please respond accordingly to ensure the public's safety. I am not sure but it appears from the attached photos that a metal plate will be needed to allow access to the building from the street. I have included Daniel Halden with CD#13 as this is their part of the district. CD#13 is currently unavailable. Please let me know when this matter will be addressed.

Thank you,

Lisa Schechter

Subject: Cole Avenue sinkhole

Hi Jim,

Thank you for returning our call this morning. I have attached a few pictures of the sidewalk that has collapsed on Cole Avenue, in front of our gate, near 1016 Cole Avenue.

Below are the details we have received:

A large portion of the existing driveway approach on Cole collapsed this morning while the contractors were loading pallets of tiling materials using a forklift. It appears that a large sinkhole formed some time ago--maybe very long ago.

A large area of driveway appears to have had no support whatsoever. It is not clear in the picture, however, the void is about 5-feet deep and maybe as much as 8-feet in diameter. The sinkhole appears to extend under the street and should be evaluated by the City asap.

We have placed caution tape and cones around the area. We called 311 and received the confirmation # 154774271, however, if there is something you can to expedite the repairs, it would be greatly appreciated.

Please advise if you have any further questions.

Thank you,

Nuria Sandoval

Dear Lisa,

PLEASE HELP! We do not want to allow too much time to elapse – please! We all know how long these things can take, even to diagnose the problem, let alone perform needed repairs.

Any other advice is welcome! It was a pleasure meeting you last week. I look forward to working with you, and supporting you in any way we can.

Thank you so much.

Sincerely ,

Ana

Ana I. Ramirez

Dear Ana:

As a follow up to our conversation this afternoon, I have made contact with Chi Ming Gong with the Bureau of Street Services who is aware of the sink hole and the need for the public's safety. "Ming" will be sending out his supervisor from the Hollywood Yard (6640 Romaine Street, Hollywood, CA 90038) to complete the initial inspection of the sidewalk area. The supervisor's name is Rene Montiel. Ming informed me that they will need to contact the various utilities prior to fixing the hole. Once the initial inspection is completed, Ming will email me with the scope of work to be completed along with a timeline.

Thank you,

Lisa Schechter
